SUMMARY

Accomplished software developer with a strong background in web and mobile application development, . Proficient in multiple programming languages and frameworks, I have a proven track record of delivering high-caliber solutions. My adeptness in project management, agile methodologies, and effective multilingual communication enables me to excel in software development projects, ensuring the delivery of top-quality, user-focused solutions.

EXPERIENCE

Mobile developer

Linkia IT & Marketnig

September 2022 – Present

- Developed multiple mobile applications from scratch using Flutter, covering all stages of development from planning and design to deployment and maintenance.
- Deployed and maintained applications on both the Apple App Store and Google Play Store.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Ensured the performance, quality, and responsiveness of applications by identifying and correcting bottlenecks and fixing bugs.
- Worked closely with clients to gather and refine specifications and requirements based on technical needs.
- Projects:
 - **Tendeal:** The go-to online shopping app for everyone in Qatar, offering a large range of products and categories from various companies.
 - **Web Link:** <https://tendeal.qa/>
 - **App Store Link:** <https://apps.apple.com/us/app/tendeal/id1665985385>
 - **Play Store Link:** <https://play.google.com/store/apps/details?id=com.tendeal.app&hl=en>
 - **Al Adeed Law Firm:** Customer application that allows users to check their case status, receive updates on court hearings, list complaints and track their status, and export upcoming sessions to their calendar.
 - **Play Store Link:** <https://play.google.com/store/apps/details?id=com.linkia.aladeedapp&hl=en&pli=1>
 - **Monasabah:** A platform providing services and consultations for individual and group events, acting as a mediator between clients and organizations specializing in various event services.
 - **App Store Link:** <https://apps.apple.com/us/app/monasaba/id1364657304>
 - **3F GYM:** An app that allows users to purchase memberships, book Calisthenics or CrossFit classes, and check information on different classes.
 - **App Store Link:** <https://apps.apple.com/ua/app/3f-gym/id6480144381>
 - **Play Store Link:** <https://play.google.com/store/apps/details?id=com.force.fitness&hl=en&gl=US>

Software developer

AXAM

October 2022 – August 2023, sousse, tunisie

- Built a multivendor web and mobile marketplace from scratch.
- Developed mobile applications from scratch using Flutter
- Led a team in the design and development of both the back-end and front-end web components of the marketplace using Laravel and NextJs.
- Orchestrated the hosting of the website on an Ubuntu server, ensuring reliable and efficient performance.
- Provided guidance and mentorship to junior team members, fostering their growth and development.
- Published, maintained, and optimized customer and seller mobile applications on Apple App Store and Google Play Store, ensuring compliance with platform standards, and streamlining deployment with developer tools.
- Projects:
 - **Axam Marketplace:** Axam is a multivendor marketplace specializing in home products and decorative items. As a Tunisian company, it was created to facilitate the search and purchase of quality products for buyers and to enable sellers to showcase their products to a large audience.
 - **Web Link:** <https://axam.tn/>
 - **Play Store Link:** <https://play.google.com/store/apps/details?id=tn.axam.marketplace&hl=fr>
 - **Axam Seller Center:** An application dedicated to marketplace sellers, offering a set of tools and features to effectively manage their online business. With Axam Seller Center, sellers can easily manage their products and track orders.
 - **Web Link:** <https://sellercenter.axam.tn/login>
 - **Play Store Link:** <https://play.google.com/store/apps/details?id=tn.axam.sellercenter&hl=en>

Mobile developer (full remote)

StepUpGolf

December 2020 – September 2022, Lyon, France (full remote)

- Collaborated with a team to develop a comprehensive mobile application using Flutter.

- Utilized Flutter for web development to create the company's website, ensuring a consistent and engaging user experience across all platforms.
- Configured the backend infrastructure using Firebase to provide robust and scalable backend services.
- Managed the configuration and deployment of both Android and iOS platforms, ensuring smooth and efficient app releases.
- Developed cloud functions using Node.js and MySQL to enhance application functionality and improve user experience.
- Conducted automated and UI testing using Appium and Firebase-TestLab to ensure high-quality and bug-free releases.
- Monitored and analyzed application performance and user interactions using Firebase Journals, Crashlytics, and Analytics, leading to informed improvements and optimizations.
- Projects:
- **StepUpGolf:** An innovative e-learning platform that provides tailored exercises for golfers of all skill levels, from beginners to experts. The app includes instructional videos and a chat feature for direct communication with golf trainers.
- **Web Link:** <https://stepup.golf/>
- **App Store Link:** <https://apps.apple.com/my/app/step-up-golf/id1572124453>
- **Play Store Link:** <https://play.google.com/store/apps/details?id=com.stepupgolf.app.stepupgolf&hl=ln>

Software developer

Paypos-tn (<https://www.khallasli.com>)

January 2020 - December 2020, sousse,tunisie

- Integrated payment modules into the Khallasli platform, ensuring secure and efficient financial transactions.
- Developed web and mobile interfaces using React and React Native, delivering a seamless user experience across different devices.
- Integrated and developed REST APIs using Node.js, enhancing the platform's functionality and connectivity.
- Documented APIs to provide clear and comprehensive guidelines for developers and stakeholders.
- Monitored maintenance and updates, overseeing server deployment processes to ensure seamless updates and scalability.
- Projects:
- **Khallasli:** A B2B marketplace that aggregates a wide range of financial and digital services accessible via various channels. It allows professionals and small local businesses to purchase products and pay for financial or banking services, including:
 - Sale of telephone top-ups
 - Payment of bills
 - Activation and recharging of prepaid bank cards
- **Web Link:** <https://www.khallasli.com/home.html>
- **Play Store Link:** <https://play.google.com/store/apps/details?id=com.paypos.projects.khallasliTpe&hl=en>

PROJECTS

Essential beauty

Sloth-lab • play.google.com/store/apps/details?id=com.slothlab.essential • May 2023 - August 2023

- Developed a Flutter-based mobile application for both Android and iOS platforms using Flutter, featuring rich animations and adhering closely to Figma design specifications. The application seamlessly functions in both online and offline modes, providing users with a consistent experience across various connectivity scenarios.

EDUCATION

Computer Engineering

International Multidisciplinary School • sousse,tunisie • 2023

Master's 1 in Software Engineering

Higher Institute of Technological Studies • sousse,tunisie • 2020

Applied Bachelor's Degree in Computer Science

Higher Institute of Technological Studies • sousse,tunisie • 2018

SKILLS

Mobile development : Flutter, Android , IOS, React Native

Web Frameworks: Node.js, ReactJs, Next.js, laravel

Databases: MySQL, , PostgreSQL, Firestore

Operating Systems: Linux (ubuntu), macOS

Development Tools: GIT, Visual Studio Code, Android Studio, Postman, Xcode

Project Management Tools: Agile / Scrum, Jira

Other Skills: Web Server Configuration and Maintenance
